

**REPORT TO THE DIRECTOR OF INTELLIGENCE
Detective Superintendent Adrian Teague**

Author: Tony Farrell, Principal Analyst

A RICH PICTURE OF AN IGNOBLE LIE OR ENABLING THE ONE TRUTH

1.0 INTRODUCTION

This report arises from your Principal Analyst holding views which run contrary to the UK Government's rhetoric on events such as 9/11 and 7/7. It considers the rapidly developing ideology referred to in this report as the New World Order. From my own self-assessment, the report outlines how my relatively new but radical opposing views are becoming increasingly problematic both from a personal, managerial and organisational perspective.

2.0 BACKGROUND

Table 1 below provides a summary of the main viewpoints currently held by your Principal Analyst. As indicated in discussions, I have researched these subjects quite extensively in my spare time and now shares viewpoints that are similar to an increasing array of well very documented sources that are exposing the truth behind the great deception behind 9/11 & 7/7.

Ref	Viewpoint Held By Principal Analyst	Probability Assessment
1	9/11 was a false flag operation where ex-President George W. Bush and his Presidential team played an instrumental part in the death of 2,571 citizens, the collapse of the World Trade Centre and the damage to the Pentagon.	> 0.99
2	7/7 was a false flag operation where ex Prime Minister Tony Blair was complicit in the murder of 52 citizens – that's the official death toll, excluding the four so called suicide-bombers.	> 0.95
3	The ignoble lies of British and American Government's about 9/11 and 7/7 continue and have been used to justify war and occupation in Afghanistan and Iraq. It comes in the guise of a war on terror and a war on Islamic Extremism. The real but unspoken motives are for oil.	> 0.95
4	The multitudes have been fooled and are blissfully unaware of the perils that lie ahead as a result of the UNGODLY corruption and evil in high places – where self protection and self interest in a veil of secrecy and denial of truth reigns supreme – at least for the moment.	> 0.95
5	The single greatest strategic threat to peace facing citizens of the UK and in the next few years arises from the rise to power of a New World Order. This elite global network is hell-bent on introducing a Secret Satanic ideology to enslave the masses by deception and obtain global control of the World's resources. Those behind the NWO are intrinsically linked to Secret Societies. This involves UK/USA Government Leaders and the major global banks.	> 0.90

3.0 My Own Perspective on the Difficulties My Viewpoints Create

From where I am sitting, the current difficulties can be categorised in a number of ways as shown in the table below.

Individual Perspective	Viewpoint	Issue for Individual
The Role of a Principal Intelligence Analyst	I see the role from a purist perspective - one that has a duty to report on whatever my analysis reveals as closest to the truth. This must be done without fear, favour or prejudice.	I accept there is a high risk of creating political tension in my new found fearless spirit that is determined to pursue the truth.
Strategic Threat Assessment	The main threat arises from the extent of Government control that is creeping in as a New World Order on the back of the ignoble lies of 9/11, 7/7 and war on terror. This contrasts with the UK Government's narrative on the threat which ignores their own atrocities and targets Al Qaeda and Islamic Extremists instead.	Feeling more enlightened, I want no further complicity in the UK Government rhetoric/spin/lies until the real truth comes out about the war – I realise that this creates difficulties for managers.
Force Control Strategy	I believe this strategy should reflect the real threat not the bogus one. I never knew the product was supposed to be merely a reflection of the Government's narrative. If we stoops to the latter, Intelligence Analysis is dead and I want no part. I am no longer prepared to countenance the perpetuation of the ignoble lie in the face of compelling and shocking evidence to the contrary.	Having prepared new Control Strategy, I have become reluctant to hand it over as I feel it would be used to speak a great untruth. I will not be complicit in this. Now enlightened, my previous work is at best irrelevant, at worst ignoble in its complicit support to the lie.
Business Ethics	My personal ethics are becoming incompatible with the business ethics of the Police Service, given the political constraints imposed on the organisation. Given what I see as the murderous wickedness of 9/11 7/7 and the aggressive foreign strategies in Iraq and Afghanistan, I have resolved to make my stance.	My hope of employment with SYP rests in a burning desire to heighten public awareness over Government corruption, see police complicity minimised and see the emergence of authentic not bogus threat assessments.
Political	The country is in deep trouble where the following quote appears most apt. "Power tends to corrupt, and absolute power corrupts absolutely." Lest we forget the poppies, while a remorseful Philip Laing is pilloried for his drunken act of silliness, an indignant Tony Blair profits obscenely from his scheming defecation of our ancient freedom fighters that fought the Nazis and the Nation buys it.	I see the principles of democracy and equality being undermined by excessive secret state oppression and control following 9/11 and 7/7. If you put a frog in water and slowly turn up the heat, the frog will let itself be boiled to death. We are the frogs.
Occupational Health	Having agreed to go on a management referral to Occupational Health, in all honesty, I see no need for this. I recognise my views could ultimately put my life at risk as what I have to say makes for most uncomfortable listening. People from near and afar will want me silenced.	Although emotional, I have an inner conviction for the spiritual struggle that lies ahead and I have deep religious conviction. I will tell Occupational Health that I don't need control "the-rapists" for a fix.

Individual Perspective	Viewpoint	Issue for Individual
Financial	Following divorce in 06, I have been struggling with a personal financial crisis and risks are quite high at the moment. Job loss as see most probable as a result of my actions here, would hasten bankruptcy. My business asset still offers some hope but my personal finances will be dire when I am dismissed or arrested.	Although having a property investment of sizeable proportions, little passion is left for it given these events. I am trapped as a Director though and while, it still has decent potential potential, it won't have under a NWO.
Religious Beliefs	<p>I am a born again Christian who believes that the bible was the divinely inspired word of God. I see widespread corruption in a largely fallen Christian Church within the Western World.</p> <p>I am experiencing a calling to a prophetic ministry in the full knowledge that whatever I do will be unpopular. I see great injustice in the current wars and the lies of 9/11 and 7/7 and I see a fragile Church standing for nothing and becoming quite another Gospel under a a false New Age movement and a satanic NWO. It Is not the Gospel of the Lord Jesus Christ and never will be. Amen.</p>	<p>I feel an immensely strong and deep calling towards a prophetic ministry. Prophetic Bible study has given me insight into the Satanic secrets hidden away within Secret Societies.</p> <p>Astonishing things have been revealed to me in recent times. Last Wednesday, before a decided to make my stance, I arrived at a point of no return in the Valley of Decision – the book of Joel 3. PSALM 23 is also apt.</p>

4.0 MY SUMMARY

Given the extent of the deceit and corruption in Government Foreign Policy and practice, and the tyranny of 9/11, 7/7 and what I see as the illegal imperialistic occupation of Iraq and Afghanistan by US and UK troops and its insipid rhetoric on counter terrorism, it remains right and proper for me to pursue the truth at any cost while ever I am fit and able. This I will endeavour to do regardless of my employment status.

For the remaining time I am employed with South Yorkshire Police, I want to tirelessly and peacefully search for the truth. I don't much care in what role I do this. To me nothing else matters as without people knowing it, we are spiralling towards a state of war every bit as dangerous as we were when Neville Chamberlain declared peace in our time in 1939. Unfortunately on this occasion, the threats are far less visible, equally putrid but potentially many times more potent. They come from within our own camp and are hidden in the power and hold that Secret Societies and Global Elite and Giant World Banking Establishments have over near bankrupted Governments. In UK – standing shoulder to shoulder with USA over foreign policy in the Middle East – ours has have long since been corrupted. Frankly, we are in a terrible mess and the nation has become too stupid to realise it.

My honest view as a Principal Analyst is that all other threats pale into insignificance when compared with the inner corruption in high places in Government. Ultimately, by fair means or foul this inner corruption has to be exposed and the police service and the intelligence services have their own Valley of Decisions to make. Who is

brave enough to take a contra position for the sake of our freedoms? I recognise that this stance is not likely to be embraced immediately and will be probably seen as unacceptable to Senior Managers. That does not make it wrong. Unfortunately, I see few others in the police service having the courage to stand and attempt to expose the ignoble lies on behalf of the public we serve. Yet if we just do nothing and bury our heads in the sand we are every bit as complicit in the tyranny.

Locally, SYP get pats on the back when we arrest Phillip Lane for his drunken defecation on a war memorial in Sheffield, yet for a similar but infinitely more insidious crime across the World, our ex PM Tony Blair gets a Golden Handshake and a lucrative part in the rich pickings from the black oil field deals of a blood soaked Iraq when innocent men, women and children suffer. It stinks – police service, Citizen focus – **are you listening?** He is never arrested and as such the police service plays its complicit part in the evil. We play the game and it's not right! It's not right!

Fifteen years ago about the time I first joined the service, the then Chief Constable Richard Wells quoted Edmund Burke in the foreword of our then Our Annual report.

“The Only Thing Necessary for the Triumph of Evil is for Good Men To Do Nothing.”

The real truth behind 9/11 and 7/7 render the Government's Counter Terrorism Strategy and our Control Strategy of PREVENT and RICH picture and Counter Terrorism Local Profiles as utter shams crafted to divert attention from their own Secret scheming and evil ways of the elite. It needs dismantling and overhauling fast. All this to my mind invalidates the Force Control Strategy unless this stance is reflected within. Sadly that will probably not happen. As such I do not have the heart to play any further part in its formulation. Deep down I know my radical views cannot yet be embraced. The time has come to throw out the old and rotten gimmicky strategies that divert us from seeing the truth. In contrast, if SYP want the source material that has led me to these viewpoints and this stance, I will happily and work tirelessly take immediate steps to package everything for digestion. You will appreciate that that would be quite an undertaking that was beyond the remit of this report.

"Finally, be strong in the Lord and in his mighty power. Put on the full armour of God so that you can take your stand against the devil's schemes. For our struggle is not against flesh and blood, but against the rulers, against the authorities, against the powers of this dark world and against the spiritual forces of evil in the heavenly realms. Therefore put on the full armour of God, so that when the day of evil comes, you may be able to stand your ground, and after you have done everything, to stand."
Ephesians 6:10-13
